

i do not want the fcc to pass any type of a law that would stop the indiana privacy law. this law has been a wonderful benefit for me and my family. Please do not do anything to keep this law from staying in effect. we do not receive as many telemarketing calls as we did before the law. now when i get a telemarketing call, i tell them that we are on a do not call list. thank you for your time.

sincerely,
tammy cox
